

Participants needed for Research

The Center for Applied and Translational Sensory Sciences (CATSS) at the University of Minnesota invites you to participate in a study on how people respond to very low-frequency sounds.

Who we are:

Peggy Nelson, faculty member in Speech-Language-Hearing Sciences
Meredith Adams, faculty member in Otolaryngology

What you do in the study:

- Stand in a quiet room on a force plate and listen to sequences of buzzes and low-frequency sounds through speakers
- Push buttons to indicate your rating of the sound
- Come to the University for one to two hours to finish all the listening.

We offer:

- \$12.00 per hour for up to 2 hours of listening.
- Free parking spot while participating in listening tasks.

Who we are looking for:

- Adults who can stand for ten minutes and hear and follow instructions in English, between 21 and 70 years of age.
- Adults with normal cognitive and speech ability.

If you are interested in participating, please call Peggy Nelson at (612) 625-7332 or contact one of us by email at nelsonlab@umn.edu.
